Place bins **away from other objects** with the **front facing the street**.

Place bins out the **night before collection day**.

Bring bins in **within 12 hours** after collection.

To report a **missed service, stolen or damaged bin**, scan the QR code below.

THINK BEFORE YOU THROW: THE 5 R PRINCIPLE

Sydney's landfills are expected to reach capacity within the next 15 years at our current rate of waste generation.

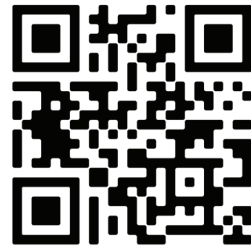

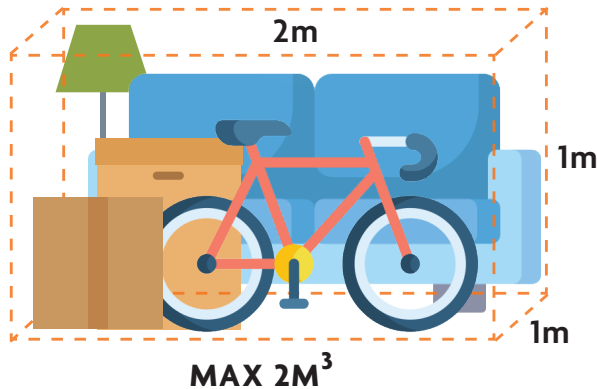

To reduce the amount of waste that goes to landfill, Strathfield Council residents should consider following the **5 R Principle - Refuse, Reduce, Reuse, Repurpose, Recycle.**

KEEP YOUR EYES PEELED

STRATHFIELD IS GOING

FOGO

Food Organics Garden Organics

RECYCLING FOOD WASTE INTO COMPOST

Strathfield's Food Organics Garden Organics (FOGO) service will be coming soon. Once FOGO starts, you will be able to place food waste into your existing green garden waste bin to be recycled into compost.

WHY FOGO?

- 🍃 The NSW Government has mandated all councils to go FOGO by 2030. We will soon be undertaking community consultations and audits to gradually transition to the FOGO service.
- 🍃 Food waste makes up to 45% of our red lid garbage bin waste. By diverting this waste from landfill into creating compost, we can reduce the amount of harmful greenhouse gas emissions created.
- 🍃 Compost made from the food waste collected will be used in gardens and farms across NSW.
