

# Significant Tree Register Index

Strathfield Local Government Area

As at December 2008

## About this Index

<b>PROPERTY DESCRIPTION</b>	<p>This index lists private properties which either contain or are attached by significant trees as listed in Strathfield Council's Significant Tree Register. Copies of the Significant Tree Register are available from Council's Customer Service Centre.</p> <p>Miscellaneous Palms (Appendix A) and Remnant Indigenous Trees (Appendix B) are integral components of the Register and are therefore included in the index. These items are listed in alphabetical order along with other Register listings.</p> <p>Properties containing significant trees are highlighted in <b>bold lettering</b>. Refer to listings in the Register. Other adjoining properties which may be affected by these trees, in the extent of roots or canopy, are shown in normal font.</p> <p>For example: <b>7 Victoria Street</b> is a property listing shown in the Register. 9 Victoria Street is an adjoining property, referred to in the section "Extent of Influence" for the above listing (ie refer to 7 Victoria Street STR.106).</p> <p><b>Note that palms and trees listed in Appendices A &amp; B do not have "extent of influence" data for adjoining properties.</b></p>
<b>QUANTITY/BOTANIC DESCRIPTION</b>	<p>The quantity and type of significant tree species, as listed in the Register, are shown here. All significant trees, as well as their listed component and associated plantings are included.</p>
<b>CODE</b>	<p>Each property listing has a code reference from the Significant Tree Register with the relevant page No. For example, <b>19 Meredith Street</b> (page 84) is shown as STR.84. Similarly, trees listed from Appendices A &amp; B are shown as APP.A or APP.B respectively.</p>
<b>ORIGIN</b>	<p>Listed trees are divided into two origin groupings. <b>R</b> = Remnant Indigenous Trees <b>C</b> = Cultural/Historic Plantings</p>
<b>HERITAGE STATUS</b>	<p>Heritage Status refers to the heritage status of the property. Heritage listings usually include reference to significant trees in the statements of heritage significance. SPSO means Strathfield Planning Scheme Ordinance. Draft LEP 105 is Local Environmental Plan 105.</p>
